WOODEN SUTNERS FOR SILVER

Consequent Democratic Convention Declares for Bryan and Sewall.

New Haven, Conn., Sept. 16.-The Democratic state convention which assembled in this city today began business with every indication of being as memorable an occasion as has ever arisen in the political history of Connecticut. While the delegates, numbering 300, were almost solely for endorsement of the Chicago platform and candidates, the whole machinery of the party in the state was in the hands of the gold standard men. But twelve members of the state central committee resigned. There was talk before the convention that there would be a bolt of the gold standard men at a time when each action would be expected to have an effect more or less spectacular. The convention was for the selection of presidential electors and for the nomination of candidates for the governorship and other state officers.

OUT OF DEBT AFTER FOUR YEARS

Financial Statement of the American Board of Foreign Missions.

Boston, Mass., Sept. 16.-The financial statement of the treasurer of the American board of foreign missions shows that for the first time since August 21, 1892, it has been able to close its business without a debt. The churches and individuals of the board's constituency have not only rallied generously to remove the debt but have contributed to the current expenses sufficiently to overcome a considerable shrinkage in legacies. Costs of relief in the mission fields and extreme economy in administration have been necessary. The total receipts have been \$743,104 and the total expenditures \$737,593, leaving a balance of \$5,511. Deducting from this the debt of a year ago, a balance is left in the treasury of \$392. The regular donations were \$455,730; legacies \$115,883; total received from all sources \$571,613. In addition to the above and aside from all receipts for the work of the board, \$199,035.96 has been forwarded for Armenian relief, and more than \$50,000 for Armenian relief in Turkey from Armenian friends and relatives in this country.

CONVENTION'S FIRST SESSION

In Which the Keynote of the Campaign is Struck by Mr. Grady.

Buffalo, N. Y., Sept. 16.-Though they were absent in body, the leadership of Senators Hill and Murphy and W. C. Sheehan was felt in the Democratic state convention today. Rumors were current in the hotel lobbies early in the day that all through the night the wires had been carrying communications between the senators and others of their lieutenants now in the city, the purpose being to bring about a modification of the resolutions on the financial question and for the endorsement of Bryan and Sewall. In this connection it was significant that Tammany men who were asked regarding the attitude of their organization professed the utmost ignorance, saying that that question would be decided at a meeting to be held later in the day.

WARRING RESOLUTIONS

It appeared to be a fact that two sets of resolutions had been prepared with a view to their submission to the convention. One set, in Elliott Danforth's charge, was said to have the approval of Senators Hill and Murphy, and Chairman Jones of the Democratic central committee. The latter, it was said, was willing to accept a qualified endorsement of the Chicago convention's work, if thereby the nomination of a gold standard Democratic ticket could be avoided. The other set of resolutions, however, that there would be no half-hearted endorsement and that the party must be freed from the domination of those who designated as kickers; and the assertion was further made that the state organization would be made up independently of those who took part in the revolt at Chicago.

POPULIST SACRIFICE OF SELF SPEAKS IN BRYAN'S TOWN-HAS LESS TO SAY ABOUT SEWALL - Predicts Defeat.

Omaha, Neb., Sept. 16.-A special to the Bee from Lincoln, Neb., says: Congressman Thomas Watson addressed an audience of 1,000 people at the Lansing theater this afternoon. Watson said that in accepting the nomination of the Populist party for the office of vice president of the United States, he had been given a plain duty to perform. He should remain on the ticket and carry forward the burden of that duty until the end of the fight on the evening of November 3. He refrained from any mention of the name of Sewall, and when a voice from the balcony inquired "How about Sewall?" this was the only question put to him which he ignored. He said the recent elections in Vermont and Maine had conclusively proved that the money power prevailed here north and east. The east could not win alone; neither could the south. Only by massing the forces of each was the election of Bryan possible. There was great danger that Bryan would be betrayed in the house of his alleged friends.
